

$$\text{CM} = 0.045 \text{ CD} = 0.088 \text{ CM6} = 0.045 \text{ CD6} = 0.088$$

Figure 1 is a plot of count rate [cps] versus Time [s] for the 2RXS J113113.3+613210 source. The plot shows 15 data points with error bars. A horizontal dashed line is at 0.0 cps. The y-axis ranges from -0.1 to 0.2 cps. The x-axis ranges from 0 to 2.0 x 10⁵ s. Statistical values are provided: mean = 0.045, $\sigma = 0.088$, and $\sigma^2(\text{rms}) = -1.493$ (2.093).

Time [s]	Count rate [cps]
0	0.01
10000	0.16
20000	0.10
